

Productive Plastics was established in 1997 by Managing Director Julian Cvitan and has grown into one of Perth's leading plastic fabrication companies offering state of the art CNC machining, diamond and flame polishing, laser cutting, bending and much more.

Our philosophy is simple, we believe in producing quality products at the best price with a good service and a happy and friendly environment. This attribute is the reasons for Productive Plastics success over all these years and is the reason for an extensive data base of strong loyal customers. Our friendly staff can help you with whatever queries you may have and there is no job that is too big or too small.

Productive Plastics is the Western Australian Distributor of Perspex® which is a worldwide renowned manufacturer of acrylic and for many people is a generic description of plastic.

Perspex® offers up to a 30 year indoor/outdoor warranty and has an extensive range of coloured sheeting and products. We also stock Euromir® which is colored acrylic mirror which has

become extremely popular. There is a range of 17 colours to choose from and can be used in many applications like cosmetic wall paneling, splash backs, feature ceiling panels, cut out lettering and shapes and much more. It is just up to your imagination. Productive Plastics has a number of other materials and products on offer as you will discover on our website.

Custom design manufacturing has been the core of our business since inception and we have been involved with many different projects over the years.

We take great pride in our workmanship and with the help of our computer program facilities and our state of the art machinery, we can make you just about anything you require. We have done a lot of custom work for businesses such as leading architects, designers, shop fitters and sign writers. The list goes on.

That's why Productive Plastics is your first choice. Our mission is to have every customer that deals with us to be happy they have chosen Productive Plastics and are satisfied they have received a

good product at the best price with helpful and friendly service.

Productive Plastics is a dynamic company that will continue to grow and diversify creating more options for our customers and also to continue to invest in better machinery and facilities as we move forward. Our new purpose built factory features a showroom where you can see all of our products for yourself or sit down with one of our friendly designers to craft and draw what you require. For larger quantity orders we will always try to consider effective cut sizes from the sheet to minimize off cut and to achieve the best value for you.

We will also try to work within your budget as there may be many different ways to produce your order.

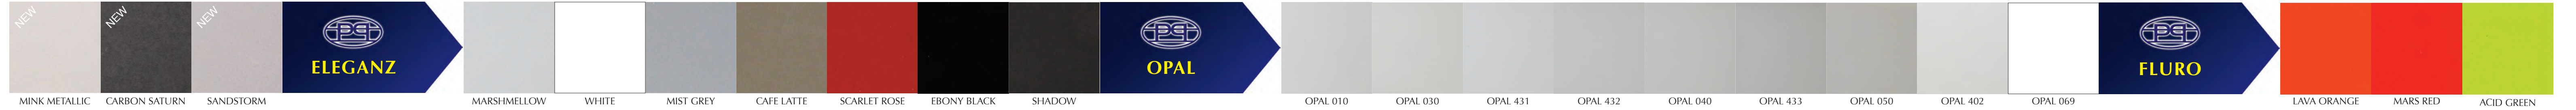

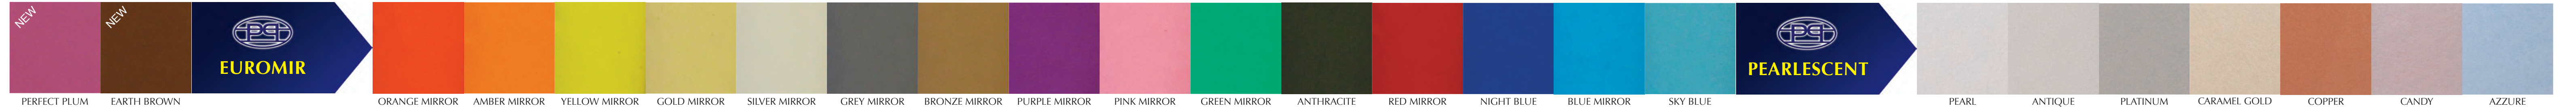

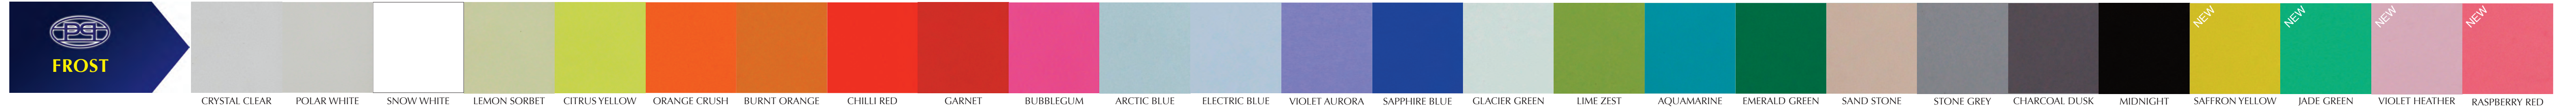

We look forward to working with you soon.
